

The new law introduced by your government in July 2007, **RA 9482** otherwise known as the **Anti Rabies Law** is still not being enforced. Our Philippine organisation Animal Kingdom Foundation Inc. (AKF) has a memorandum of agreement with the Philippine National Police (PNP), signed by Director Andres G. Caro II and headed by Senior Superintendent Antonio Gumiran Jr. to eradicate rabies from the Philippines. The eating of dogs is one way of spreading rabies, plus other serious illnesses such as E.Coli, food poisoning. Death will occur from rabies, the other diseases can also cause death. **RA9482** provides for a P5,000 fine for each and every dog dead or alive traded for human consumption, plus one to four years imprisonment.

Mr Ambassador, we therefore respectfully request that you urge your government to vigorously enforce this law.

Sincerely
